

A Cost Effective Point of Sale Solution for Fuel Retailers

T-POS Terminal

The TT Fuel T-POS Terminal is a specialised yet cost effective forecourt control and POS solution, designed to meet the needs of small-medium sized fuel stations with the flexibility and scalability to suit your business.

- Manage all your sales through T-POS interface; supported by fast, reliable and intuitive software built for fuel retailers.
- Control the operation of all forecourt equipment including Fuel Dispensers, Automatic Tank Gauging (ATG), Electronic Price Signs.
- Manage Wet Stock and Dry Stock inventory in real time with sufficient localised reporting.
- Dedicated Customer Screen to display sales transactions, product advertising and promotions.
- Expand your operational capacity with the option to add additional T-POS Terminals (up to eight terminals).

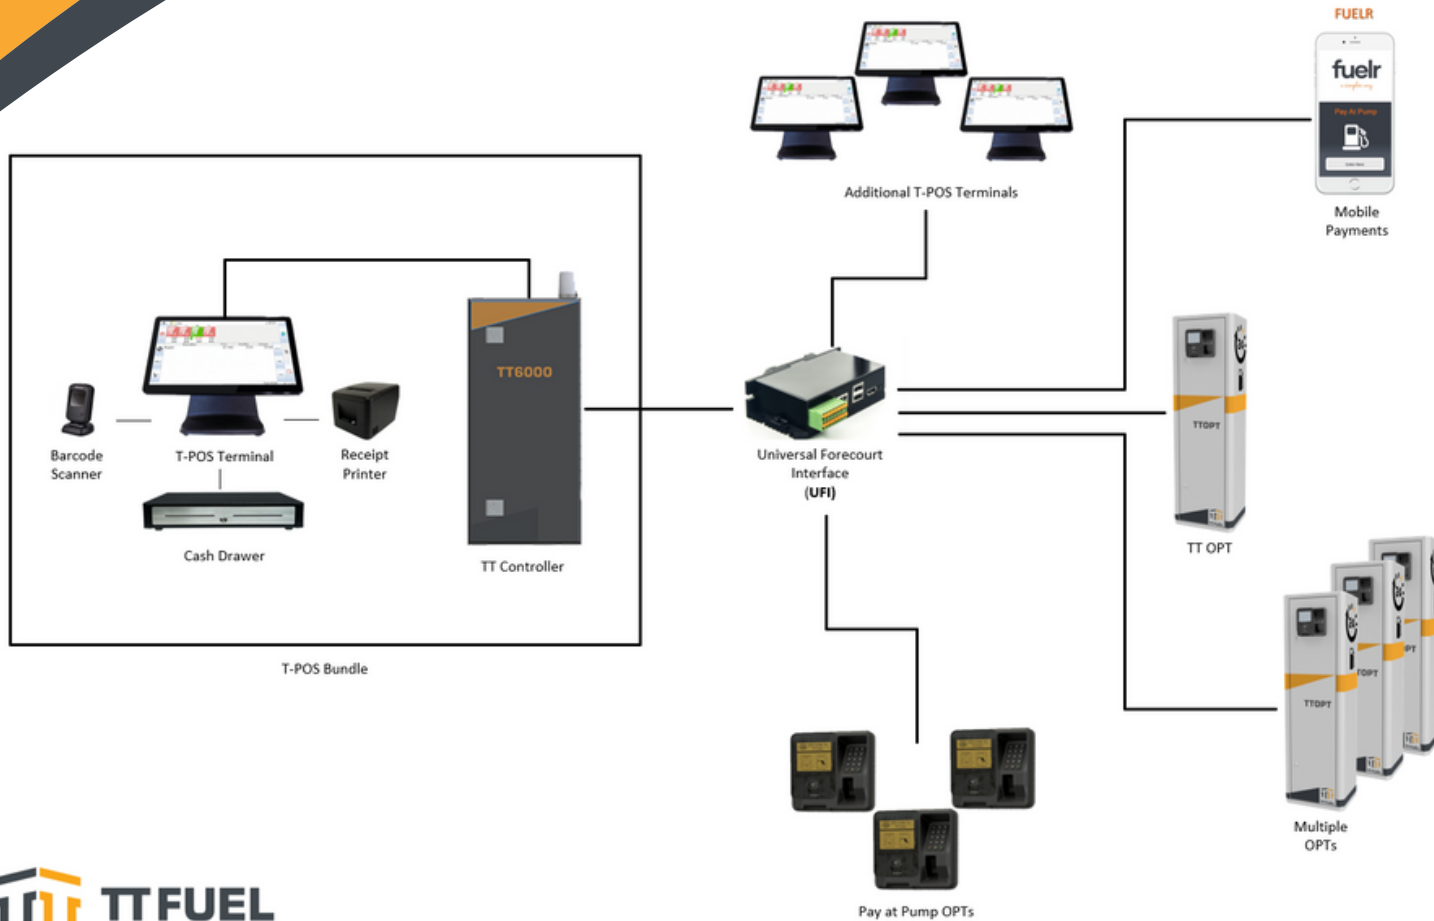

Designed Specifically For Fuel Retailers

- Control and monitor all major brands of fuel dispensers and automated tank gauging.
- Powerful yet simple touch screen interface, which enables fast and efficient operation.
- Easy to configure and customise to match your business.
- Set and control security settings to match your staff's roles and responsibilities.
- Manage Wet Stock product price changes in one place. T-POS will synchronise with fuel dispensers and electronic price signs.
- Visual indication of dispenser status and active sales in real time.
- Comprehensive Stock Management Module to simplify your business.
- Can handle multiple Discount Types to suit your business requirements.
- Capability to set-up and manage private accounts and cards locally on T-POS.
- Capability to integrate with existing fleet cards from T-Web.
- Enhance your security with the option to PRE-PAY fuel sales.
- Streamline customer experience by Stacking of Sales to avoid delays at the forecourt.
- Create "Combo" specials in Dry Stock function.
- Expand your operational capacity with the option to add additional T-POS Terminals (up to eight terminals).
- Integration with TT Fuel OPTs for 24/7 Operation.
- Certified to OIML R117 under NMI Certificate of Approval S422.

T-POS Solution Overview

TT Fuel is a global technology business that enables clients to manage the storage and handling of hydrocarbons whilst mitigating risk and realising opportunity.

We have global experience supporting companies with fuel management systems, outdoor payment terminals, forecourt controllers, point of sale terminals, bulk fuel loading systems, management software services and specialised fuel storage & dispensing solutions.

We are a data rich business that delivers meaningful reporting and information to our customers to help them overcome challenges and manage risk.

Our excellence in technical listening and our focus on outcomes have allowed us to become proven innovative problem solvers.

We strive for durability, simplicity and exceptional performance when designing our products and solutions.

Our flexible solution architecture allows us to help customers manage change in their business and industry.

We are customer and outcome focused, understanding that we will be judged by our actions and performance.
